# NEED HELP WITH CALCULATING YOUR GRADE POINT AVERAGE (GPA)?

The first thing you need is a copy of your report card from the last quarter of last school year!  
 Look for your report card at home or access it online if you are a 7<sup>th</sup> or 8<sup>th</sup> grader.  
 See your counselor for assistance with this prior to Friday, November 2, 2018.

All grades earn points as listed below.

- A = 4 points
- B = 3 points
- C = 2 points
- D = 1 point
- F = 0 points

PREVIOUS QUARTER			CURRENT QUARTER		
Subject	Letter Grade	Points	Subject	Letter Grade	Points
Total Points			Total Points		
GPA (total points divided by # of class periods)			GPA (total points divided by # of class periods)		

Round decimals to the nearest hundredth.

Your GPA for each quarter equals the average of your points. You can find out how much you improved by finding the difference between the 2 quarters.

What is the difference between the 2 GPA's? \_\_\_\_\_  
*Difference = your improvement*

**.01 - .33 means that you might be eligible for a Blue Card!**  
**0.34+ means that you might be eligible for a Red Card!**
